

Hi _____,

I'd like to request approval to enroll in the AI Builders Bootcamp offered by UBC Extended Learning In Partnership with Circuit Stream.

This program is designed to help professionals understand and apply AI in real business contexts — equipping you to design, build, and deploy end-to-end AI systems, from machine learning models to production-ready applications — with a focus on improving productivity, automating workflows, and identifying high-impact opportunities for AI in day-to-day operations

Why this matters for our team

- **Increased efficiency:** Learn how to automate repetitive tasks and streamline workflows using AI tools.
- **Better decision-making:** Gain practical frameworks for using AI to analyze data and generate insights.
- **Competitive advantage:** Stay ahead as AI adoption accelerates across our industry.
- **Immediate application:** The program is hands-on, meaning I can apply what I learn directly to our current projects.

Program details:

- **Duration:** 10 Weeks
- **Format:** Live Online
- **Cost:** \$3,990.00

Many organizations are investing in AI upskilling to improve output and reduce operational friction, and this program is structured specifically for working professionals looking to drive real business outcomes.

I'm confident this will translate into tangible value for our team — from time savings to improved performance on key initiatives.

Please let me know if you'd like more details on the curriculum or expected outcomes. I'm happy to share additional information.

Thank you for considering this request.

Best,
